plosives show that LPG accidents are generally caused due to ignition of escaped LPG mostly resulting from negligence or mishandling at the customer's premises of equipment like rubber hose, stove knob, pressure regulator etc. The oil marketing companies are procuring only ISI certified LPG cylinders, valves and regulators, while distributors are under instructions to release a new connection only on ensuring that the consumer has an ISI certified stove. All such ISI certified equipment has in-built safety characteristics.

Oil drilling at Thevur

*94. DR. SHYAM SUNDAR MOHAPATRA:

SHRI V. GOPALSAMY:

Will the Minister of PETROLEUM AND NATURAL GAS be pleased to state:

(a) whether the oil drilling at Thevur off Nagapattinam has commenced; if so, the details thereof;

(b) the number of other spots, where oil drilling has been going on in the past in Tamil Nadu;

(c) the details of the outcome of each such drilling and also the amount spent for each drilling; and

(d) the number of such oil wells which are expected to be drilled in the Cauvery belt in the near future?

THE MINISTER OF STATE OF THE MINISTRY OF PETROLEUM AND NATURAL GAS (SHRI CHANDRA SHEKHAR SINGH): (a) Yes, Sir. The well Thevur-1 was spudded on 20-3-86 and has reached a depth of 1401 mts on 17-4-86, against a target depth of 3500 mts.

(b) 23 wells have been drilled so far at 14 different places in onshore Cauvery Basin.

(c) Oil/gas was discovered at Karaikal, Kovilkallapal and Narimanam besides minor hydrocarbon indications at Madnam and Tiravarur. The cost of completed wells where accounts have been finalised ranges from Rs. 11 lakhs to Rs. 218 lakhs.

(d) During 1986-87, it is proposed to drill 5 wells onland and 2 wells offshore in Cauvery Basin.

*95. [*Transferred to the 6th May, 1986*]
